

DELRIDGE PARKS DEVELOPMENT PROJECT

Thursday, December 16, 2004

from 6:00 – 7:30 PM

Brandon Court

Comments received during community meeting:

Vehicles, traffic issues:

1. Playground would increase use and parking needs at Delridge and 25th.
2. Maintain alley access for garbage trucks
3. 26th and Puget Boulevard is a problem corner – people drive too fast and turn onto gravel to spin tires – dangerous situation
4. Curb does not keep cars off grass at Greg Davis – need a more substantial barrier such as boulders.
5. Crosswalk on Delridge at Puget Boulevard is needed for safety – bus stops exist on both sides at this location.
6. Mid-block crossing with ramp on 26th at Greg Davis Plaza is desired.
7. or Mid-block raised pavement for crossing 26th.
8. Can traffic circle be improved?
9. Accessible pathways, paved or crushed stone
10. Provide for church parking needs, they are important part of neighborhood.

Program ideas:

1. Orchard for community use – need to ensure maintenance plan
2. Games tables
3. Picnic, BBQ, open area near Church
4. Playground located away from Delridge
5. Informal baseball on open grass field
6. Is more open grass that needs to be mowed really necessary?
7. Dispersed activities and noise is desired
8. Replace full court basketball with two half courts
9. Labyrinth located in quiet area
10. Gateway feature at 26th and Puget Boulevard
11. Consider ways to deter drug activities in the parks
12. Minimize grading work, consider drainage impacts of park design
13. Legacy trail signs continued in this park, add signs at Delridge entry

P-patch ideas:

1. Accessible area with raised beds
2. Bulk delivery area with easy vehicular access
3. Expand P-patch towards Delridge since some plots to be eliminated for walkway
4. Need fence for security
